Islip, NY

(518) 218-6532

FRONT-END DEVELOPER SUMMARY

- Most recently, I created a JS quiz that filters through results and passes data to marketing software
- Create & improve custom themes & features for e-commerce platforms (Shopify, Woocommerce)
- Advanced implementations of Wordpress (custom resource pages, galleries, filtering, and job pages)

TECHNICAL SKILLS

- Programming Languages - Javascript (ES6, jQuery, REST), PHP, CSS (Sass, Less), Basic Python
- Platforms & Tools - Gulp, Git, Shopify (Ruby Scripts, & APIs), Wordpress (Custom Post Types, Taxonomies, Hooks, Actions, and Filters)

EMPLOYMENT & EXPERIENCE

Huemor Designs

Farmingdale, NY

Front-End Web Developer

January 2015 - Present

- Construction, expansion, and improvement of e-commerce sites
 - Custom multi-level navigations (off-canvas, search, promo bars, imagery in nav)
 - Carts (mini-cart creation, Ajax handling, use platform REST APIs for data handling)
 - Product Pages (variant manipulation, sold out actions, sliders, related products, 3rd party plugin extension)
- Create advanced Wordpress themes for B2B clients
 - Build resource sections with CMS control (custom loops, infinite post load, custom post types)
 - Implement 3rd party inbound marketing scripts (JS integrations for hubspot, wufoo, listrak, and mailchimp)
 - Custom pages (PHP filterable galleries, case study post types, JS modal slider bios)
- Suggest new technology and workflow improvements e.g. (Babel, Sass, Flexbox)
